

DEPARTMENT OF TRANSPORTATION		REPORT OF BRIDGE SURVEY			U.S. COAST GUARD CG-2541-D11 (Rev2/99)	
INSTRUCTIONS: 1. Submit this report to the Auxiliary Coordinator as soon as possible after conducting the survey. 2. The best time to survey bridges is shortly before sunset so you can observe any hazards or discrepancies before dark, then observe the lights after dark. 3. If conducting the survey by land, respect all property rights. DO NOT TRESPASS. 4. Auxiliarists do not have law enforcement authority. Take care that your survey is not interpreted as a law enforcement action. 5. Minor discrepancies (e.g. one light out, clearance gauges hard to read) should be reported by mail. More serious problems (e.g. most or all lights out, hazards to navigation, bridge malfunction) should be reported to the nearest Coast Guard Group Office by telephone or radiotelephone. If in doubt, report it.						
NAME OF BRIDGE HIGH STREET BRIDGE				LATITUDE 37 45.9' N		LONGITUDE 122 13.5' W
NAME OF WATERWAY OAKLAND INNER HARBOR				MILES ABOVE MOUTH 6.0		TYPE OF BRIDGE B
NAME/ADDRESS OF BRIDGE OWNER Country of Alameda 399 Elmhurst Street Hayward CA 94544				NAME/ADDRESS OF BRIDGE OPERATOR (if different) _____ _____
